

Prowise MOVE

Prowise MOVE makes your lessons fun, educational and healthy. Students will no longer be seated, but will be standing and actively moving in front of the Prowise Touchscreen while learning with ease. The specially designed MOVE tools can be opened in Presenter 10 and offer a unique learning experience.

With the Prowise MOVE camera, your students can operate the Touchscreen without physically touching it. This will make your lessons more interactive and dynamic than ever.

With the webcam, four wide area microphones and the 2.1 Dolby Audio soundbar you can enjoy a complete conferencing solution.
